

Shake Hands

With opportunity whenever he presents himself, is a motto that all should heed. Old opportunity is met around Shields' store oftener than anywhere else in town. In fact he makes it his headquarters and seldom takes a vacation. Get into the habit of going to Shields' and you will soon become greatly attached to the kindly old opportunity. When you have done so your life will be brighter, and as the novelists say, 'you will live happy ever after.' These low prices should interest you.

The less money a person has, the longer he wants it to stay with him. The well-dressed of easy means can look out for themselves—we are looking out for the people that want to dress well, at moderate cost. Shoes are an important item of dress. We have turned the matter of buying shoes into a science, and the selling of them at this week's prices is the easiest thing in the world. We are very strong on colored shoes, especially women's tans, ox-bloods and russets. We sell more colored shoes than anybody in Rock Island, but we want to sell more. The bigger the business the lower the price. Just consider what these prices mean for first class stock, and then look at the shoes. It costs nothing to look. Ladies' Oxfords 75c, 98c, \$1.25 and \$1.50. Ladies' Lace Shoes, ox-blood \$1.39, chocolate \$1.49, fine turn \$2.50. 300 men's shoes from 95c up, in the coin toe.

ADAMS IN ANYWAY.

That is if a New Apportionment is Made.

LOWER END COUNTY TO STICK.

Little Hop, of the Change Petitioned for if the Proposed Deal is Made—Something for Rock Island County to Tie To.

T. H. Thomas was in Springfield yesterday to add volume to the Macedonian cry which has gone up among republicans in many counties in the present Tenth congressional district against the proposed apportionment, which places Rock Island in a district with Adams county. The plea of Rock Island county republicans, whose sentiments Mr. Thomas went to voice, is to have Schuyler substituted for Adams. But the last named county is not to be cast out from the district of its own making without emphasizing its wishes. It was on hand at Springfield yesterday with just as strong a petition, that the proposed district be permitted to stand, as the combined strength of the array that is against it. Adams maintains that it is growing more republican daily, but allied with such counties as it is attached to, it will never have a ghost of a show of electing anybody but a democratic congressman. These counties of the Eleventh with which it is the plan to associate Adams, aver that the republican faith that may be within Adams county has not yet sufficiently asserted itself to merit the fullest measure of confidence, and that the danger of a democratic congressman is altogether too great under the present circumstances to take any chances. Adams, however, seems to have the situation pretty well under its control at the present moment. Naturally Mr. Thomas would be as well satisfied to have the Tenth district remain as it is with his friend, Congressman Prince, in charge of patronage, but as long as a change seems imminent he takes more kindly to Schuyler than to Adams.

The Democratic View. Meanwhile the democrats are viewing the situation complacently. With Adams county in this congressional district, the democrats will elect the congressmen, "Doc" Robbins or no "Doc" Robbins, while with the substitution of Schuyler for Adams, which the Rock Island republicans seek, and which would simply reestablish the old Eleventh district, the republicans have more hopes. During the time that it was in existence, nevertheless, the democrats elected the congressman three times out of the five, the republicans winning the last time just as the old apportionment was discarded.

Viewed from any standpoint, the gerrymandering business is fraught only with unhappy prospects to republicans.

Cupid breaks his bow at the sight of a face full of pimples. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body. Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and so make solid, healthy flesh. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood.

COUPLE LOCKED UP

Divorced Man and Wife Quarrel.

SHE ASKED POLICE PROTECTION.

An Officer Accompanies Her to the Place of Business of Her Former Husband and Trouble Follows—Boy Spends a Night at the Station.

J. P. Ament, proprietor of the second hand store at 1622 Second avenue, and his divorced wife, who makes her home in Davenport, were locked up at police headquarters last evening. The relations between Mr. and Mrs. Ament have been unhappy for several years. Their separation did not bring about peace, as it was expected it would do, Mrs. Ament continuing to make life unpleasant for her divorced husband. They have had numerous settoes. Mr. Ament recently took unto himself a new wife. Then Mrs. Ament, the first wife, and Mr. Ament locked horns over the children, who had been living with their mother, and who demanded that they be supported by their father.

Finally Mr. Ament's little daughter came to live with him. Mrs. Ament came over from Davenport yesterday, accompanied by her son, and asked at police headquarters that she be accorded protection while in the store of her former husband. Officer Archer accompanied Mrs. Ament. The little girl ran away and screamed when she saw her mother, and Mr. Ament gave his little son, who was with Mrs. Ament, a slap. It was trouble all around, and in order to bring it to an end Officer Archer took the couple in. They were released in a short time by Chief Pender, who told them that if they wanted recourse to go about it in a legal way. Mrs. Ament visited State's Attorney Searle today and told her story. The trouble is all over the children, it seems.

A Night in the Cooler.

Martin Johnson, a 12-year-old lad, spent last night in the cooler. He has been staying out late, disobeying his mother's orders, which were that he be in at a reasonable hour. Officer Hayman met Martin when he turned in last night at 11:30, and locked him up. Martin was let go this morning, after promising to be a better boy.

The police were notified last night that seven horses, one belonging to Robert Froeter, 4513 Sixth avenue, had been found roaming about the pasture on Rock river bottom back of Moline. It is supposed the horses had been stolen.

Couldn't Find the Bed.

A well known resident of the upper end of the county, who is a witness before the grand jury, put up at one of the Rock Island hotels last night.

The room to which he was assigned had a folding bed. He began to undress, and incidentally to size up the room. Finally he put on his coat and went down stairs.

"That's a nice room you gave me all right," he said to the clerk, "but I would like to have a bed to sleep in."

The clerk explained the fact that the room had a folding bed. The guest retired without saying another word, but the joke got out today, and the young man's friends are having no end of fun out of it.
